## **SERVOTECH SECURES ANOTHER PROJECT FROM UTTAR PRADESH MEDICAL SUPPLIES CORPORATION TO PROVIDE OXYGEN CONCENTRATORS**

With a noble objective to play an instrumental role in strengthening the preparedness and support UP government in its endeavour to ensure adequate Oxygen provision during the ongoing Omicron crisis, **Servotech Power Systems Limited** secures another project for providing medical-grade Oxygen Concentrators in a call for tender by **Uttar Pradesh Medical Supplies Corporation (“UPMSC”)**, a nodal organization for centralized procurement and distribution of drugs and equipment to Government Health Facilities in Uttar Pradesh. Being a reliable company with a track record of delivering successfully in accordance with the requirements, terms and conditions in the earlier project, this is the second one of the two projects secured of total worth 7 Crore during the FY 21-22.

Having acted as one of the major providers of Oxygen Concentrators to a large number of clinics, hospitals and households during the second wave of COVID-19 in 2021, Servotech as part of its commitment to bridge the demand-supply gap, yet again levels up its production and logistics to ensure timely delivery of these life-saving devices. Currently processing the devices for a thorough detailed inspection, testing and evaluation by experts, Servotech has planned the execution of the project by this month of January itself.
