Servotech obtains project from Smile Foundation to provide sizeable consignment of Oxygen Concentrators

New Delhi: With a strong inclination and commitment to extend its unconditional support by contributing towards the cause of precautionary preparedness during the presently unfolding Covid crisis, **Servotech Power Systems Limited**, an NSE listed company reckoned as a pioneer in the integration of smart technology and modern-age innovations for the manufacturing of highly sophisticated solar products, LEDs, Oxygen Concentrators and UV-C healthcare devices, obtained a project for providing a sizeable consignment of its medical-grade Oxygen Concentrators in a call for tender by **Smile Foundation**, a national NGO engaged in the service of welfare and wellbeing of over **15 lakh children** and their families through various on-ground projects and initiatives.

The acquired project worth over 2.5 Crore entails the end-to-end facilitation of rigorous functionality testing & inspection, processing, dispatch and delivery of the required number of Oxygen Concentrators swiftly.

Being a credible and reliable company with offerings ranging from life-saving medical devices to healthcare disinfection devices, Servotech intends to be at the forefront to assist the organization in ensuring adequate buffer stock of medical Oxygen generating devices in order to strengthen the readiness of the rapid response teams to carry out immediate rescue and critical-care operations.

"We stand united with Smile Foundation in these tough times to make necessary provision of the instant Oxygen supply through our ready-to-use Oxygen Concentrators that guarantees absolute purity and consistent Oxygen flow," said **Raman Bhatia, Founder & Managing Director, Servotech Power Systems Limited**.

Commenting on the obstacles and hurdles, he further stated, "Though it seems challenging to expedite the preparation and delivery of the consignment given

the current restrictions and limitations on several fronts but we at Servotech are best known for keeping our promises and will provide this shipment to Smile Foundation within the stipulated timeframe with absolute agility."

Servotech as part of its commitment to bridge the demand-supply gap for concentrated Oxygen during the second wave of COVID-19 in 2021, acted as one of the major providers of Oxygen Concentrators to a large number of clinics, hospitals and households and yet again is scaling up its production capacity aggressively to ensure timely delivery of these life-saving devices.

Recently, Servotech secured another project for providing medical-grade Oxygen Concentrators in a call for tender by **Uttar Pradesh Medical Supplies Corporation (UPMSC)**, a nodal organization for centralized procurement and distribution of drugs and equipment to Government Health Facilities in Uttar Pradesh. The project by UPMSC was the second one of the two projects secured of total worth 7 Crore during the FY of 21-22.
