

AB-8300 Home/Car air purifier

- Smart control, Smart timer
- UV+Tio2 Nonometer Photocatalyst;
- Granular activated carbon, anion;
- HEPA efficient filtration, negative ions;
- According to personal preferences to add perfume;
- 4 hours of continuous work automatically shut down
- Both sides of the cycle of air purification, improve the efficiency of purification

Double effect out of the wind, cycle purification

Connect to power source and start working, the smart detect system will detect the air quality in 3 minutes, and adjust the fan speed and air quality indicate light according to the air quality

low speed

mid speed

high speed

Product parameters

- Size:212*136*64mm
- Rated voltage:DC12V
- Rated power:<8W
- Net Weight:0.46kg
- Coverage Area:10~15m²
- Carton:15pcs/ctn·G.W./Carton:15KG

Fans Speed :-

- Low Speed - 1843 RPM
- Mid Speed - 2326 RPM
- High Speed - 2680 RPM

SMART car air purifier

Power port

USB 5V output

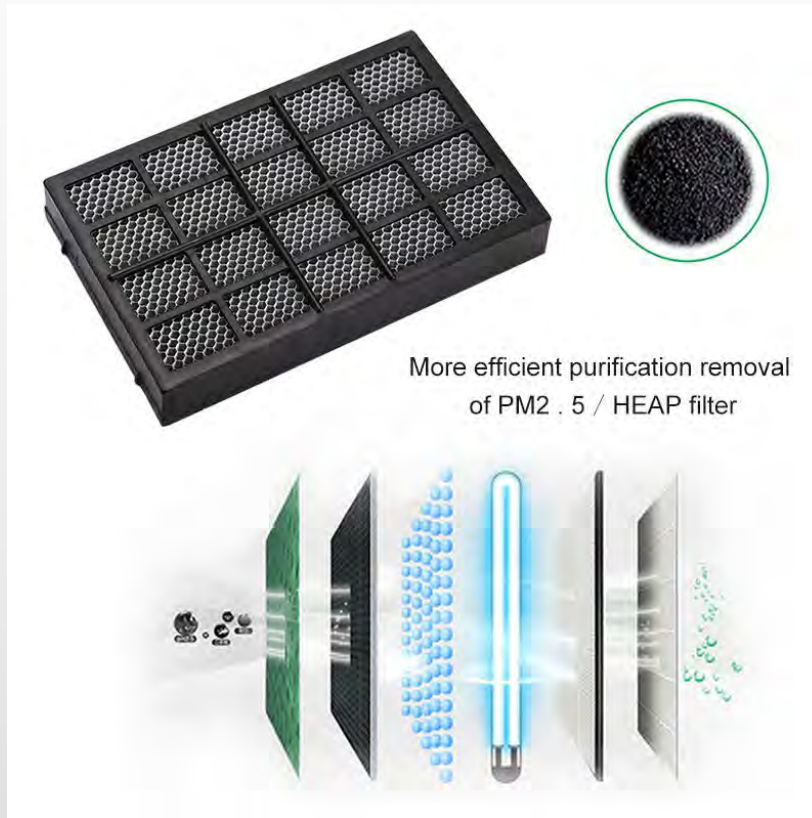

Two charging methods

Power port
USB 5V output

Multi-effect HEAP filter

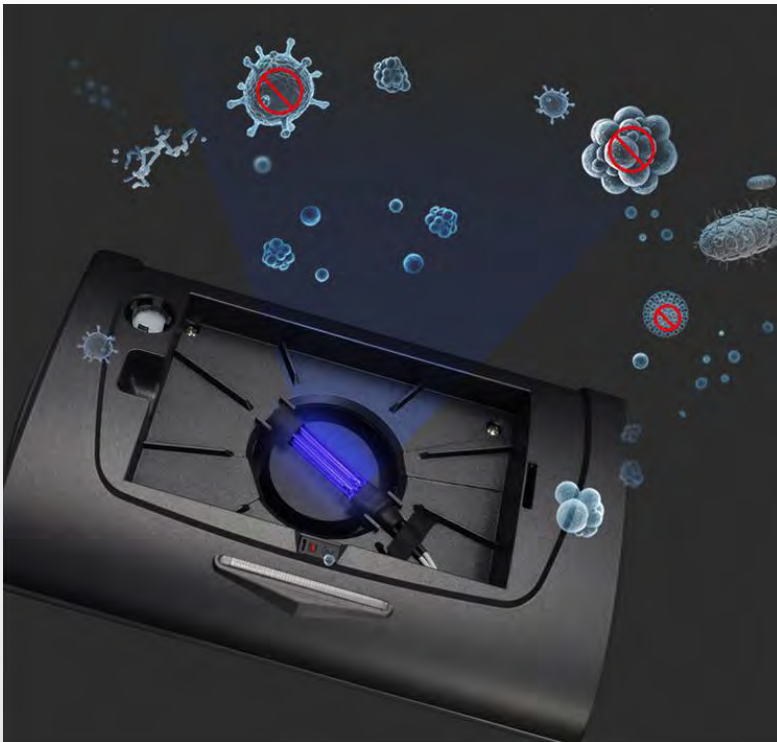

- Rough filter for clearing particles can be seen
- HEPA: PM2.5 clearance in 99.5%
- Activated carbon fiber for clearing odor
- Tio2 Nano Photocatalyst: use with UV to clear odor and mold, etc

Add essential oil

UV sterilization light

Anion purification
