

## PRESS RELEASE

**New Delhi, December 13 2022**

### **Servotech Inks Pact with National Solar Energy Federation of India (NSEFI) to Install Solar-Powered EV-Charging Carport**

**New Delhi, 13 Dec 2022:** NSE-listed **Servotech Power Systems Limited** has signed an agreement with India's apex solar organisation, **National Solar Energy Federation of India (NSEFI)**, to undertake the complete implementation of **Solar-powered EV Charger-enabled carport** as part of a pilot demonstration.

By way of this pilot project, NSEFI has afforded Servotech a whitespace to showcase its Solar and EV charging capabilities blended together in one innovation. The carport is proposed to be installed at the Ministry of New and Renewable Energy's (MNRE) premises in Delhi, which, in effect, will help gauge to replicate the setup at other strategic locations.

The project's scope of work will involve Servotech carrying out the design, fabrication, and installation of PV plus storage carports with EV charging capabilities. This innovative structure will be put together with a 5kW solar system, equipped with two DC fast EV chargers of 11kW each. Solar carports can be engineered to easily blend in with the surroundings and are designed to cover a range of automobile parking places.

On the back of being awarded this noteworthy opportunity by a prestigious organisation like the NSEFI, **Sarika Bhatia, Whole-Time Director, Servotech Power Systems** commented, "We are positive that this pilot will prove to be catalytic to other upcoming green energy solutions in the state. Delhi has long been known for its highly adaptive, embracing ecosystem, and the carport, installed right in the MNRE complex can serve as a lighthouse example, making a real statement on sustainability. Both Servotech and the NSEFI are working to fulfil Prime Minister Narendra Modi's vision of bringing about carbon neutrality in the country. Solar-powered and EV charger-enabled carport is one key step in this direction. With coordinated efforts from all stakeholders, we intend to implement renewable, energy efficiency, and electric mobility projects that will go a long way in unlocking the best that clean power generation has to offer."

### **About Servotech Power Systems Limited:**

Servotech Power Systems is an NSE-listed organization that develops tech-enabled EV Charging solutions leveraging their over two decades of experience and expertise in the electronics space. We offer an extensive range of AC and DC chargers which are compatible with different EVs and serve multiple applications such as commercial and domestic. With our comprehensive engineering capabilities, we plan to play a pivotal role in developing India's EV tech infrastructure. A trusted brand with a strong pan-India presence, our legacy is marked by proven innovation and distribution of high-end LED lighting and UV-C disinfection products, along with medical-grade oxygen concentrators and its makings.
