

Immediate Press Release

New Delhi, 26th March 2025

Servotech Renewable bags order of Solar Rooftop from North Eastern Railway

New Delhi, Mar 26, 2025: Servotech Renewable Power System Ltd. (NSE: SERVOTECH) (formerly known as Servotech Power Systems Ltd.), a leading provider of EV chargers and solar solutions, has announced its successful acquisition of its first **solar rooftop order** of around **2 MW** from **North Eastern Railway (NER), Lucknow Division**. This achievement underscores Servotech's expertise in providing renewable energy solutions and its commitment to supporting sustainable infrastructure development.

Commenting on the order, **Sarika Bhatia, Director, Servotech Renewable Power System Ltd.** (formerly known as Servotech Power Systems Ltd.) said, "This first order in the railway sector is a testament to our technological capabilities and our commitment to providing sustainable energy solutions across various industries. We are enthusiastic about the potential opportunities within this sector and are confident in securing further solar projects in the near future. Our expertise will significantly support Indian Railways' green energy initiatives".

Servotech has established a strong presence in the renewable energy landscape, working closely with major oil marketing companies and state governments, and nodal agencies to deploy solar solutions and EV charging infrastructure across the country. The company is dedicated to innovation and providing sustainable solutions, and is now actively expanding its footprint within the Indian Railway sector to contribute their ambitious sustainability goals. This entry into the railway sector opens up new avenues for growth and aligns with the company's vision of contributing to a greener future throughout the Indian Railways.
