19<sup>th</sup> August 2025

### Servotech Secures 7.3 MW On-Grid Solar Rooftop Order from North Western Railway Jaipur Division

**New Delhi, 19 August 2025: Servotech Renewable Power System Ltd. (NSE: SERVOTECH)**, recognized as one of India's best renewable energy companies, has announced the securing of a prestigious order for a **7.3 MW on-grid rooftop solar project** from the **North Western Railway, Jaipur Division**. The project carries a **total value of ₹28.84 crore** and marks yet another milestone in Servotech's journey of driving India's clean energy transition.

As part of this contract, Servotech will be responsible for the end-to-end execution of rooftop solar PV systems. This includes the design, manufacturing, supply, installation, testing, and commissioning of solar plants of varying capacities across multiple sites within the Jaipur Division. The initiative aligns with the Indian Railways' ambitious sustainability agenda, which focuses on reducing dependency on conventional energy sources and significantly cutting carbon emissions through renewable energy integration.

Speaking on the achievement, **Sarika Bhatia, Director, Servotech Renewable Power System Ltd. said**, "We are honoured to receive this important 7.3 MW rooftop solar order from the Jaipur Division of the North Western Railway. The project reaffirms Servotech's standing as a trusted and reliable partner in India's renewable energy space. We remain deeply committed to offering cutting-edge solar solutions that not only meet but exceed performance expectations, contributing towards Indian Railways' vision of sustainable and eco-friendly operations."

This contract further solidifies Servotech's expanding footprint in the public sector, underlining its expertise in handling large-scale solar projects with precision, efficiency, and world-class standards. With this win, Servotech continues to strengthen its mission of empowering India's energy independence while contributing meaningfully to the nation's transition toward a greener and more resilient future.
