Commenting on the results, **Raman Bhatia, Managing Director, Servotech Renewable Power System Ltd.**, said, “The first quarter of FY27 reflects the strength of our execution capabilities and the growing market acceptance of our integrated clean energy solutions. We have delivered strong growth across revenue and profitability while continuing to invest in innovation, manufacturing expansion, and technology development. The momentum witnessed during the quarter is a result of our disciplined approach to execution and our ability to capitalize on opportunities emerging across the renewable energy, BESS, and EV charging sector.

As India accelerates its transition towards sustainable energy, we remain focused on scaling our manufacturing capabilities, advancing indigenous technology, and delivering long-term value to our customers, partners, and shareholder with a healthy order pipeline and a strong foundation for growth, we are confident of sustaining this momentum in the coming quarter.”

Disclaimer:

This press release contains "forward-looking statements" — that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance, and often contain words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "should" or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, uncertainties arise from the behaviour of the renewable energy, electronics, and EV infrastructure industries; from the integration and performance of our subsidiaries and joint ventures; and from numerous other matters of national, regional, and global scale, including those of a political, economic, business, competitive, or regulatory nature. These uncertainties may cause our actual future results to be materially different from those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.
